

Epol's Essential Roughage Cubes use high quality roughage to produce a product suitable for all types of horses. These high fibre cubes are ideal for stretching available hay in times of hay scarcity or when the quality of available roughage is not desirable, ensuring your horse gets the quality fibre they need to ensure their digestive system functions optimally. These cubes do not contain additional vitamins and minerals making them ideal for use alongside other fully fortified feeds.

Suitable for all types of horses and ponies needing added fibre supplementation.

- Suitable for dentally challenged equines and those not able to consume long stemmed roughage.
- Reduced wastage compared to long stemmed hay.
- Provides a consistent nutrient value compared to hay.
- Can help to reduce dust levels compared to long stemmed hays.

Roughage should be provided at 1.5% of bodyweight per day. The amount of Essential Roughage Cube fed will be dependent on each individual.

Available in a 40 kg bag.

Should be stored in a cool, dry area under roof and out of direct sunlight.

This product has a shelf life of 12 months from the date of manufacture.

- 10% CP
- 35% Fibre (max)
- 2.5% Fat
