

Epol Mixed Chaff is a blend of high-quality grasses including lucerne and teff. This produces a high fibre chaff with reduced levels of starch making it suitable for conditions needing a non-structural carbohydrate controlled diet. A fine coating of oil is added to assist with coat and skin condition.

Suitable for all types of horses and ponies needing added fibre.

- **Suitable for horses needing a low calorie diet.**
- **Short cut fibre length for ease of consumption by horses that struggle with long stemmed fibre.**
- **No molasses added.**
- **No added vitamins and minerals making it suitable for use alongside other products.**

Roughage should be provided at 1.5% of bodyweight per day. The amount of Mixed Chaff fed will be dependent on each individual.

Available in a 20 kg bag.

Should be stored in a cool, dry area under roof and out of direct sunlight.

This product has a shelf life of 12 months from the date of manufacture.
