

Epol Pre-Training Pellets is the ideal feed for young horses in training as it is fully fortified and designed to meet the daily nutritional demands of growth as well as work.

Suitable for young racehorses working at a light-medium level.

- **Carefully balanced energy levels to ensure youngsters can reach their true track potential whilst maintaining condition.**
- **Quality protein sources assist in building muscle strength as well as supporting tissue development and repair.**
- **An appropriate/suitable level of starch to ensure suitable energy delivery whilst reducing the risk of starch overload and the chance of digestive upset or excitable behaviour.**

Roughage should be provided at 1.5% of bodyweight per day. The amount of Pre-Training Pellets fed will be dependent on each individual but no more than 2.5 kg per meal is recommended.

Available in a 40 kg bag.

Should be stored in a cool, dry area under roof and out of direct sunlight.

This product has a shelf life of 6 months from the date of manufacture.
