

Epol Stud Horse Pellets/Meal are designed primarily for broodmares during pregnancy and lactation, however its composition also makes it suitable for feeding to other stud animals, providing ample nutrients for working stallions and growing young stock.

Suitable for “all round” stud applications.

- **Can be fed alongside our balancers to offer calorie flexibility.**
- **Vitamin K is provided to assist the developing skeletal structure of the foal.**
- **Highly palatable.**
- **Fully fortified to provide all the daily essentials of the stud horse.**

Roughage should be provided at 1.5% of bodyweight per day. The amount of Stud Horse Pellets fed will be dependent on each individual but no more than 2.5 kg per meal is recommended.

Available in a 40 kg bag.

Should be stored in a cool, dry area under roof and out of direct sunlight.

This product has a shelf life of 6 months from the date of manufacture.
