

Epol Millard Race Pellets is a high-performance product with a high protein level for muscle development of both younger and more mature racehorses. It has been scientifically formulated to suit all horses in training.

Suitable for all horses in training.

- Provides optimal energy for top race performance.
- Lower starch levels compared to other race rations ensure less “hot” energy is delivered.
- These medium starch levels also assist in minimizing the risk of starch overload in the hindgut.
- Ideal ration to phase in from pre-training as young horses increase their workloads.
- Fully fortified to ensure top performance of the equine athlete.

Roughage should be provided at 1.5% of bodyweight per day. The amount of Millard Race Horse Pellets fed will be dependent on each individual but no more than 2.5 kg per meal is recommended.

Available in a 40 kg bag.

Should be stored in a cool, dry area under roof and out of direct sunlight.

This product has a shelf life of 6 months from the date of manufacture.
