

Epol Low Calorie Balancer is a nutrient-dense supplement, containing all a horse or pony needs for health and well-being, without the calories associated with a traditional concentrate. This Low Calorie Balancer complements diets consisting of roughage and pasture only, as well as those being fed lower than recommended levels of concentrate, and hence receive a reduced intake of essential nutrients.

Suitable for all types of horses and ponies needing a calorie-controlled diet.

- **Low in starch with a reduced molasses content.**
- **Quality protein sources supply essential amino acids to assist in maintaining muscle, other tissues and hooves.**
- **Ideal for those receiving restricted grazing (and/or soaked forage) but still requiring a balanced diet.**
- **Includes a yeast culture (*saccharomyces cerevisiae*) which has been proven to enhance animal performance and aid digestive health.**

Roughage should be provided at 1.5% of bodyweight per day. The amount of Low Calorie Balancer fed will be dependent on each individual.

Available in a 22.5 kg bag.

Should be stored in a cool, dry area under roof and out of direct sunlight.

This product has a shelf life of 6 months from the date of manufacture.
