

Epol Safe 'n Lite is a highly specialized feed developed specifically for horses that are prone to conditions such as laminitis, insulin resistance, Cushing's disease, and/or those which display an intolerance to sugars and starches. Although Safe 'n Lite is grain free with very low levels of starch and sugar, it offers ample energy delivered by the inclusion of super fibres and fats to support working horses.

Suitable for horses and ponies needing a low non-structural carbohydrate diet.

- **Includes a yeast culture (*saccharomyces cerevisiae*)**
- **which has been proven to enhance animal performance and aid digestive health.**
- **Fully fortified for overall well being.**
- **Low levels of molasses to ensure a reduced NSC level.**
- **Biotin included to help support hoof growth.**

Roughage should be provided at 1.5% of bodyweight per day. The amount of Safe 'n Lite fed will be dependent on each individual but no more than 2.5 kg per meal is recommended.

Available in a 20 kg bag.

Should be stored in a cool, dry area under roof and out of direct sunlight.

This product has a shelf life of 6 months from the date of manufacture.
