

Epol Yearling Pellets is made up of a blend of balanced energy sources together with a high level of quality protein which ensures stable skeletal development and muscle growth as well as consistent daily weight gain in foals and young stock.

Suitable for foals from 3 months on to pre-training.

- **Helps to maintain condition and top line.**
- **Can be used in conjunction with Epol balancers.**
- **Suitable for young stock prone to weight loss.**
- **Designed to support optimal bone growth.**

Roughage should be provided at 1.5% of bodyweight per day. The amount of Yearling Pellets fed will be dependent on each individual but no more than 2.5 kg per meal is recommended.

Available in a 40 kg bag.

Should be stored in a cool, dry area under roof and out of direct sunlight.

This product has a shelf life of 6 months from the date of manufacture.
